PROJECTS

Krarktosser v2

Mobily web app for coin tossing with some advanced settings to play specific Magic: The Gathering deck. Now remade with React.

Features:

> Toss up to 100000 coins without waiting for tedious animations
> Advanced settings for interactions with a card named Krark's Thumb

 https://github.com/YegorZh/Krarktosser–v2

MuseBobot

Music bot for discord created to serve several small scale personal servers.

Features:

> Play music from youtube video link, search phrase or playlist link
> Pause and resume
> Loop song or loop entire queue
> Skip current playing song
